- Instructor: Misty from Ritual + Root & Wicked Soaps Co.

Let the fun begin!

Join us for a festive evening of creating your very own winter or holiday themed candle! In this workshop you will get an overview of the candle-making process while guided step by step through the process of making your own unique soy candle. You will create and take home one 10 oz candle in the holiday/winter themed scent of your choice. Our candles are made with 100% natural soy wax, cotton wicks, and clean-burning phthalate free fragrance oils. With proper wick and candle care, your candle will have a total burn time of approximately 60+ hours. Snacks & drinks are welcome.
